**Subject:** Selected pre-event data SJR  
SJR NN Pre gfsh USEPA APS-FCPP\_010715 (2).xlsm

I have done some sorting & editing of the USEPA\_APS-FCPP\_010715 file supplied by Janet. In the attached spreadsheet, the "SJR - GKM metals & selected WQ" tab contains data from San Juan River only stations (I think I identified them correctly – please check). I omitted data on pharmaceuticals, radiologicals, weather and various water quality standards. I also added columns to convert mg/l data to ug/L units (see highlighted "R9 Edit" columns). All of the original data remains, but I think the data most relevant for us is in columns A thru I.
